PATENTED ROSES

PEACE (Mme. A. Meilland) (Plant Patent No. 591)

This glorious Rose is almost unbelievable in its beauty size and lasting qualities. The buds are golden yellow enlivened by a flush of vivid pink at the petal edges. These buds open slowly, giving long-lasting blooms that show delicate tints of yellow, pale gold, cream and ivory blending on each petal to a lightly ruffled edge of pink. The colors vary, and the change of tints is an enchanting thing to watch, as it differs from day to day and from flower to flower but is always beautiful and always in harmony. \$2.50 each postpaid.

DICKSONS RED (Plant Patent No. 376)
